HEALING WATERS FROM ANTIQUITY

Science that matters

The Omorovicza journey began when the **healing properties of Hungary's thermal waters** were discovered. Because of the unique geological features of the region, waters absorb beneficial minerals more effectively and that unique mix of minerals and trace elements make them incredibly healing.

With Hungarian Laboratory of dermatology they incorporated properties of healing waters into a skincare range. Patented complex - Healing Concentrate™, used in products, delivers therapeutic minerals to deepest layers of the skin.

The results are nothing short of extraordinary: firmer, suppler & younger looking skin.

ZERO NASTIES POLICY: all products exclude ingredients such as parabens, glycols, mineral oils, silicone, phthalates, sodium lauryl sulphate, synthetic colours, synthetic fragrances or chemical sunscreen.

50ml / 85,00€

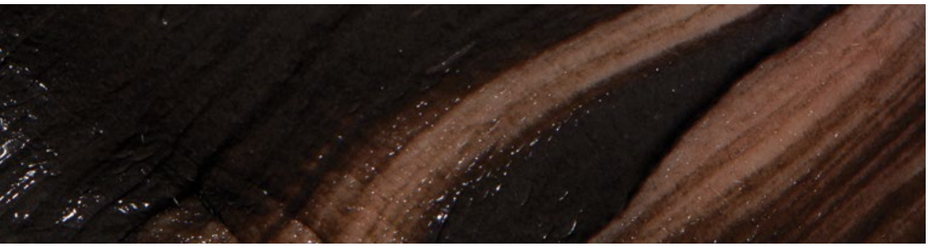
Hungarian moor mud

Organic acids and essential minerals from deeper layers of the earth.

Hungarian moor mud is a remarkable natural substance. **Sourced from Lake Héviz** – Europe's largest thermal lake – this potent ingredient lies beneath the water's surface.

It is rich in transformative minerals and acids like **calcium, humic and fulvic acids**, which have been used for thousands of years. The skincare benefits of Hungarian moor mud were first realized by the Romans when the wounds of their injured horses healed faster after they ploughed through the mineral-rich mud.



PROPERTIES: detoxifies, balances, mineralises and revitalises. Among these advantages is its ability to remove impurities, regulate sebum production, and combat breakouts.

The nourishing elements from the precious blend of minerals, trace elements and acids are thought to work harmoniously to deeply cleanse and detoxify your complexion. They could also infuse your skin with healing properties and provide a protective shield to fight off any environmental aggressors that may disrupt your skin barrier.

Whether you've got sensitive, dry or combination skin, unique and powerful Omorovicza Moor Mud collection has so many benefits to offer your complexion.

The dry oils

Beauty essentials to pamper yourself inside and out.

These specific dry body oils are each designed with a special purpose. Whether you want to restore and recharge, detox or just press pause and relax, allow us to give you a few insights.

APPLICATIONS

- After bathing or showering, apply to dry or damp skin, gently massaging until completely absorbed.
- Add a few drops of oil to your body cream for intensive hydration.
- Add a few drops in your bathtub to enjoy a sensorial bath.

WELL-LIVING TIPS

- **The Dry Oil Fitness** - an added step to your workout routine: a leg massage with this oil after training and you'll forget about fatigue! Spa day at home? Perform a massage with this oil while your face mask is working, and put your legs up. Embrace renewed skin and body!
- **The Dry Oil Fitness Detox** - to help clear your mind, listen to a guided meditation session while applying this oil. Walking through nature is refreshing and, in combination with this oil, helps detoxify body and mind.
- **The Dry Oil Fitness De-stress** - to promote rest and relaxation, perform a gentle massage with this oil before going to bed. The lavender scent is ideal for falling asleep. One of the best ways to wind down is to practice deep breathing. Inhale through your nose for 5 seconds, hold your breath for 5-7 seconds and exhale through your mouth for 7 seconds.
