RIMAC NEVERA AT SUN GARDENS DUBROVNIK

Sun Gardens Dubrovnik has hosted the Rimac Dealers Sales Conference from June 2-6, 2021, following the international launch of the newest Rimac model, 'Nevera,' the world's best and most powerful electric hypercar.

The Rimac Dealers Sales Conference gathered distributors and buyers, hosted test drives, and officially presented the new [Rimac Nevera hypercar](#). Founder and CEO of Rimac Automobili Mr. Mate Rimac confirmed on Facebook that more than 80 international customers, associates, and distributors from all over the world, including the USA, Japan, the United Kingdom, and various EU countries were in Dubrovnik for the presentation. The newest model is named after the powerful and unique force of nature in the Mediterranean - unexpected and mighty Nevera summer storm charged by lightning.

"At the beginning of the project, we set ourselves really high targets; global homologation, fastest acceleration of any car, most powerful production ever, lots of features and functionalities, autonomous driving features, and comfort in the car. Making it usable, not just to sit in the garage but for people to actually enjoy it," said Mr. Mate Rimac.

"I'm very proud that we nailed pretty much everything and even overachieved with some of our targets. One of the things that make this car very special is that everything has been developed and designed specifically for this car. Everything is custom-made for this car by our team here. We are really proud of the results and think we have something really special," Rimac added.

This fully electric next-generation hypercar opens up new dimensions in road performance. With 1914 horsepower from four electric motors, Nevera can accelerate to 100 km/h in 1.85 seconds and 100 miles per hour in just 4.3 seconds. The acceleration is maintained throughout the full-throttle cycle and reaches 300 km/h from the start in 9.3 seconds. Nevera achieves a record-breaking 8,6 seconds quarter-mile time.

The Rimac Dealers Sales Conference is further confirmation that the convenient location and exclusive facilities of Sun Gardens Dubrovnik is a top choice for hosting automotive events in Croatia and beyond.

Sun Gardens Dubrovnik offers many great locations for vehicle displays and photo shoots. It features 200 outdoor parking and 200 indoor garage spaces that can be privatized. The event locations and 753 sqm main ballroom are car accessible, while 16 bars and restaurants within the resort guarantee a variety of extraordinary indoor & outdoor venues for group functions like lunches, dinners, and press conferences. Car maintenance and washing areas are available at the resort, and there are electrical car chargers on site. Sun Gardens Dubrovnik has hosted several major automotive events so far.
