SHIRODHARA

75 min

Relaxing treatment that includes a relaxing massage while slowly pouring medicinal oil on the forehead in a thin, continuous stream.

The warm oil flows in a thin stream over the forehead and hair, focusing on the area between the eyebrows, and collects in a container under the head.

The gentle pressure of the oil flowing down the forehead, head and hair creates a vibration that enables the body, thoughts and nervous system to experience a deep state of rest, most similar to that achieved through meditation. The stream creates friction and electrical impulses that are transmitted to the brain, stimulating the production of dopamine, serotonin and endorphins. It also affects the glands with internal hormone secretion and balances the entire hormonal system.

AYURVEDA HARMONY FOR BODY & MIND

75 min

Ayurvedic massage is based on Indian medicine. By clearing blockages in the energy system (chakras), it enables body balance.

The massage has a deep relaxing effect. It acts on all tissues, organs, channels and revitalizes them. The treatment is done with different types of warm oils, using a special technique that uses a combination of deep treatment of acupressure points and relaxation of the body using lymphatic drainage.

A total of 35 points are treated on the foot, which stimulate the organs and remove toxins from the body. Pressing the points on the shin relaxes the shin muscles and the tension in the Achilles tendon. Proper processing of the outer side of the upper leg muscle fascia reduces the tension in the knee and hip.

HOT STONE

75 min

This massage is used to help ease tense muscles and damaged soft tissues throughout your body. Smooth, flat, heated volcanic stones are placed on specific parts of the body.

After the stones heat the muscles the massage begins, as warmed muscles help to improve the benefits of this massage. It can help relieve muscle tension and pain, reduce stress and anxiety, promote sleep quality, increase joint flexibility and many more.
