GETTING TO KNOW MEDITERRANEAN GARDEN

You know about the sun, you know about Dubrovnik, now learn about the gardens which contribute to the unique Sun Gardens Dubrovnik version of Paradise.

In addition to glorious views of the Adriatic, resort is also blessed with lots of land to offer guests the chance to walk around and relax in Dubrovnik's natural beauty. Sun Gardens Dubrovnik does just that, with no less than 57,000 m2 of park area in the resort, much of which has been carefully manicured and supplied with aromatic and blooming Mediterranean plants to make guests feel right at home. And where else in the region would you find English grass on the lawns, for example!

The tradition of preserving and highlighting Nature's beauty is long-established in the Dubrovnik region, and the oldest arboretum in Croatia is just down the road at Trsteno, and well worth a visit. And while the plants of Sun Gardens Dubrovnik are not as old as the famous arboretum, they are also a marvel to behold.

The key elements of a Mediterranean garden are light, warmth, simplicity and relaxation, core elements of a stay at Sun Gardens Dubrovnik. The Mediterranean Diet has also been inscribed as UNESCO intangible heritage, and it is the freshness and available of its fruits, vegetables and herbs which makes it particularly

attractive. As such, you will find olive trees, pomegranates, rosemary, carob and citrus fruits (oranges, lemons and the Dubrovnik speciality, bitter oranges).

A key element of the gardens has been the intention to blend them into the guest experience. The atrium gardens of the apartments, for example, were conceived as green oases. These can be traversed on existing paths and contribute to the view from the balconies and terraces. The atriums have been given their Mediterranean distinctiveness with the plants mentioned above, as well as cypress trees, loquat, pine, roses, bourgainvillea, oleander, as well as colourful Lantana, Geraniums and Begonias adding a

dash or colour to this already aromatic combination.

And it is not just in the gardens where the planting takes place. The range of Cape-myrtle and oleanders planted next to the staircases connecting to the pedestrian streets are an additional attraction for guests moving around their resort, and their long-lasting lavish blossoms contribute to the relaxed nature of your stay.

The green roofs of nearly 5,000 m² have also become something of an attraction from the air, and they are distinctly visible from planes flying into Dubrovnik, so don't forget to look out as you approach to get your first glimpse of the natural and blossoming beauty of our resort! The green roofs above the conference centre creates a special visual atmosphere of waves of lavender combining with decorative white pebble and dychondra lawn.

Similarly, the roof of the Spa Centre is characterised by irregular organic surfaces of different blooming and aromatic plants, once more connecting light, warmth, simplicity and relaxation to the Sun Gardens Dubrovnik guest experience.

The lavish gardens can be enjoyed 12 months a year, with May to October the best time to observe them in full bloom and in all their majesty. They are there for you to enjoy – a walk after breakfast, a stroll before dinner. Inhale the aromas, admire the blossom, get inspired by the herbs – the Mediterranean garden is a sensual experience for all the senses.

SPRING/SUMMER MAKE-UP TRENDS

Get ready to charm with spring/summer make-up trends straight from the runway. From bright colours around your eyes to a shimmery bronzer, here are the ultimate make-up looks that are ideal for your holiday in Dubrovnik.

Renewed skin is key to achieving flawless makeup so the first step should always be a good preparation that is suitable for your skin type. Wash your skin with a cleanser and don't forget to moisturize. Once your skin is fresh and clean it's time to get playful with your palette.

Regardless of the trends, stick to the basics during the day and remember less is more – layer on UV protection, apply BB or CC cream with a light coverage, use concealer to cover pimples, dark spots or unevenness, define your brows, add a little waterproof mascara to your eyelashes and enhance your cheekbones with a bronzer. For the ultimate day look, choose peachy shades on your lips. To make sure

your look will survive the excitement of the day, set it with a setting spray.

Daring colours and runway trends are reserved for the evening. Play with lively colours, make a statement with your lips, or get the runway look with some sparkling eye make-up. After an early dinner on the Market promenade, continue your evening with a stroll through Dubrovnik's most beautiful street – Stradun. Sit for a drink, enjoy the view and the vibrant atmosphere – let Dubrovnik be your private runway.

VEG-CENTRIC TASTE

Plant-based food is continuing to be the hottest culinary trend, according to global food-industry experts.

Apparently, 69% of consumers are making an effort to increase the veggie intake in their diet, due to their increasing awareness of health, the environment and compassion for animals. The growth is also influenced by an increasing number of people who simply enjoy non-meat food (such as Millennials) and those suffering from various food intolerances.

With the rise of conscious eating, awareness surrounding sustainability and rapidly growing health trends, it's no surprise that many people are increasingly prioritising vegetarian and vegan dishes. They want options that sound healthier but with bold flavours, new cooking methods or different textures.

Mediterranean cuisine is well-suited to such trends as it focuses on seasonal vegetables and fruits, legumes, whole grains, seeds and nuts, olive oil, fish and a limited intake of meat and dairy products. And in Croatia, we adore Dalmatian cuisine, which is one of the healthiest in the world! It includes the best of the Mediterranean way of cooking, but also incorporates elements from the Dalmatian hinterland and Croatia in general. The basic concepts are very simple: the freshest, seasonal local ingredients, simple recipes and traditional home cooking.

Discover the exciting vegetarian and vegan dishes on offer throughout all our restaurants. The menu includes fresh meat-free ingredients enriched with Mediterranean herbs such as basil, oregano, bay leaves and rosemary grown in the Dubrovnik region. With luxurious recipes like chicory and pineapple salad, baked eggplant with curd & mozzarella and vegetable polpetta with tofu, you'll find exceptional and delicious choices to inspire you.

STUFFED ZUCCHINI AND TOMATO SALSA

Beyond the Butcher's eminent meat dishes, our chef recommends fresh zucchini with flavoursome tomato salsa. Served with well-balanced tender aromas from the chickpea puree and the bitterness of the asparagus for a light overture to your dinner. Our friendly staff are on hand at all times to guide you through our extensive wine list to find the perfect combination.

LEMONIA POOL

Experience true luxury as you lounge by one of the best pools in the world, as stated by the Conde Nast Traveller. Enjoy the selection of refreshing options and delightful sweet snacks such as ice creams, smoothies and fresh, local fruits. Lemonia Pool also features dedicated pool for children with beautiful water features as well as outdoor playground nearby. After a beautiful, sunlit day with the family at Lemonia Pool, return later to unwind with a favourite cocktail, beer or wine.

SCENTS AND FLAVOURS OF LA PASTA

Take a culinary journey at La Pasta, a modern restaurant specializing in fresh and simple Italian cuisine. If you are looking for a recommendation make sure to try Pappardelle with prawns. This delicious and rich in flavour dish is served with velvety sauce infused with white wine, chili, garlic and parmesan cheese.

Far from ordinary, at La Pasta you will experience the fresh pasta, freshly made pizza and salads all served against the backdrop of innovative décor in woody surroundings.

The secret of our pizzas? An open kitchen with an oven exclusively for baking pizzas offers diners a wonderful dining experience.
